Sir:

In order to comply with the requirements for patent applications containing amino acid and/or sequence disclosures, Applicants refer to the Sequence Listing submitted on May 28, 2003 in computer readable form in parent application serial number 09/688,188, which contains sequence information identical to that of the present application. The sequence listing for the present application is being submitted herewith on CD-ROM, two (2) identical copies, in lieu of a paper copy of the sequence listing. Applicants hereby request, therefore, that the Computer Readable Format of the Sequence Listing submitted in the parent application be used to fulfill the sequence disclosure requirements for the application in caption pursuant to 37 C.F.R. § 1.821(e). Applicants hereby state that the contents of the two (2) CD-ROM submitted herewith and the Computer Readable Format(CRF) of the sequence listing submitted in the parent application serial number 09/688,188, filed on May 28,2003 are the same and no new matter has been added.

Enclosed is a copy of the Statement to Support Filing and Submission in accordance with 37 C.F.R. §§ 1.821-1.825, which was filed in the parent application.

Applicants also note that the specification already contains incorporation by reference of the material on CD-ROM and indicates that the sequence listing is contained on CD-ROM in lieu of a paper copy, therefore, no further amendment is needed.

Applicants respectfully request examination of the instant application on the merits in due course.
